AS NATURALLY  
AS THE SPARKS FLY UPWARD

One of the most remarkable outcomes of the recent Dominion elections is the discussion now going on in the Canadian press about the liveness of free trade as an issue in Canada.

One side soberly and seriously declares that free trade is dead, and the other side as seriously admits that it got a bad jolt, but claims that it will revive again and become the national issue at some later date. Conservative papers are sure that no successful appeal can ever be made to the Canadian electorate in support of free trade, and liberal papers are not so absolutely certain that the party was well-advised in ever having tried to lower the tariff at all.

From which one might infer that the founts of wisdom on these rival partisan publications actually imagine that free trade can cease to be a human desire.

What an absurd thought!

Where did the tariff come from? By whom is it maintained in existence? Why, and in what way?

The tariff is today, as it was a thousand years ago, a system of piracy, a tax taken forcibly from legitimate industry, a tithe wrung from honest commerce to enrich a strong and ruthless hand which is able to lay hold of the portals of trade through intrigue, force or politics and lay a whole country or a continent under tribute.

Where does the word "tariff" itself come from? Once in the days of long ago, when piracy was in vogue in the Mediterranean there was a small town in the south of Spain in which there lived a most ruthless band of pirates who lay in wait for merchantmen as they came through the Gates of Hercules. "Tarifa," they would call, as they demanded that the merchantman heave to, and clambering aboard assisted to the teeth and ready to slit the throats of whoever resisted their demands they took a tribute from all and sundry who passed their way. Being cunningly wise in their generation, these scoundrels did not take the whole ship and cargo, nor did they injure the merchant crew if it was to be avoided, nor to do so would have been to shut off their chance of a future levy against that particular ship. With organization the people of Tarifa arrived at the point where the ship paid tariff to one pirate band was immune from the others, and the traders came to recognize that the easiest way was to conform to the tribute as an inevitable levy, hand over the percentage demanded, and pass on. It became a tax taken by the stronger from the weaker, not as a right or a just levy, but taken because it could be taken. The cost was charged up against the foreigners in distant parts who bought the goods. At least, so the merchantmen thought.

Civilization changed all this. The pirates were overthrown. No more did they fly the Jolly Roger and take their tribute on the high seas. But the piratical spirit still lived, rampant as well at home as abroad. And, seizing hold of the ports of entry, strong men within the nations emulated the pirates of Tarifa and took tribute of every ship which came home from sea. Time brought its apologists for a system which was in the start, dividing the tribute with the harbor master, backing his levy with the force of the nation's arms. And now, having grown hoary with age, we find the institution become the customs house, the insignia of power and authority being not the skull and crossbones of the days of old, but the gold braid and blue of the customs officer.

But the spirit is the same; a levy against trade, a tax passed on to the defenceless at the far end, a system of grab which makes it cost more money to get the goods past the customs house of Tarifa than it does to carry them across the continent or around the world on the high seas. In this day and generation the system has found its host of special pleaders, the predatory ones who wave the old flag and make of the tribute a national rite, who advance the specious plea of "protection for home industry," who assure the taxed ones that they are enriched by the payment of the tax, who assure the public that their special privilege to assess the nation is for the nation's good.

And now we come to the time when the special pleaders of the tariff press assure us that the tariff must abide, that the natural desire for freedom of trade which evidenced itself when the nations of old combined to overthrow the pirates of Tarifa can no longer move to action the producers who pay the tribute; that the nation has been so lulled by the specious argument that its people will no longer struggle against the impost.

What rot!

Was there ever a red-blooded man who, having paid the tribute demanded by the customs officer, did not feel that he had been robbed? Was there ever a woman who would not stand up at the border line and blandly lie to the customs officer regarding the trills and laces in her trunk? Was there ever a farmer's son of 16 who did not figure in his own mind how the tariff on machinery made it harder for him to get to college? Was there ever a mechanic who did not regard the ever-increasing cost of living as a direct result of the tariff which protects the goods he makes without protecting him? Was there ever a thinking man who did not realize that he was paying tribute on the clothes he wore, the shoes, the shirts, the tools in his hand, the food he ate and the blankets he slept in?

In the face of this, for the tariff pleaders to say that free trade as an issue is dead is quite as absurd as it would be for them to say that the struggle of the human race for bread, for enlightenment, for advancement, had been relinquished. The desire for freedom of trade is as natural as the desire for justice. It is a fundamental for which the human mind reaches out as naturally as the slave yearns for emancipation, as naturally as the sparks fly upward.

SEVENTEEN CASES  
ON CRIMINAL DOCKET

ONE MURDER CHARGE AND ONE OF  
MANSLAUGHTER ON THE LIST—  
FOUR CIVIL SUITS.

Seventeen criminal cases will come up for trial at the sessions of the supreme court which open tomorrow morning before Mr. Justice Simons, of which seven are jury and ten non-jury cases.

During the course of the work the trial will commence of James Atkinson, charged with the murder on September 11, of Milo Binkes. The murder is alleged to have taken place in a field in Sharnock valley where the two half-brothers lived as partners, trading and shooting in the surrounding country. A quarrel took place during the night, Atkinson is alleged to have left the tent, seized a rifle which lay in the house close by, and returning, shot his partner dead.

Frank Van Canneyt, the Lesman rectoring officer, who on his own admission shot a man who was present in the selling booth at the time of counting the ballots, will be tried on a charge of manslaughter.

In addition to the criminal cases four civil cases will come up for trial before the jury. They are:

Grady vs. Smith et al.  
Casavant vs. C. N. R. et al.  
Lemarche vs. C. N. R. et al.

Following are the criminal cases.  
**Jury Cases.**  
Rex vs. James Atkinson, murder.  
Rex vs. Frank Van Canneyt, manslaughter.

Rex vs. John Benkowski, non-support.  
Rex vs. Geo. Melchior, non-support.  
Rex vs. John Zukley, non-support.

Rex vs. Walter L. Hall, criminal offense against boys.  
Rex vs. Pasquale Armando.  
Rex vs. A. J. Bates, abductor.

Rex vs. Harry McPherson, forgery.  
Rex vs. John Sholodien, indecent assault.  
**Non-Jury Cases.**

Rex vs. Joseph Woods, theft.  
Rex vs. Walter L. Hall, theft.  
Rex vs. Clyde Smith, false pretenses.

Rex vs. Mike Salowicki, assault.  
Rex vs. O. H. Mahaffey, assault.  
Rex vs. Arthur W. Smith, conversion.

Rex vs. J. H. Horner, theft.  
**G.T.P. MACHINISTS  
ARE LOCKED OUT**

THOSE WHO DID NOT RETURN TO  
WORK SATURDAY NO LONGER  
EMPLOYED BY COMPANY.

Whispered, Oct. 16.—All the machinists and boilermakers of the Grand Trunk Pacific railway who are on strike and did not return to work Saturday, are no longer considered employees of the company.

This was the statement made this morning by G. W. Caye, vice-president. This applies mostly to strikers, said Mr. Caye, as at the other points the number of men is very small and difficulty will be found in filling their places.

"Yesterday one of the members of the board approached me," he continued, "showing telegrams that had passed between the board and Mr. Somerville, who is heading the strike for the men, pointing out that if the company was willing to let them back all the men showing no discrimination or prejudice that the men would return to work."

"My answer to this was that I would make no commitments. Mr. Somerville had to make it a day or two and he will look after the question."

The conciliatory board comprising Rev. Dr. Sparling, chairman, T. J. Murray for the men, and R. J. L. Jordan, appointed by the company, will meet to represent the company will hold a meeting Monday morning.

**GRAND TRUNK STRIPS  
ARE HEAVILY POLICED**

Only a Few Unskilled Men at Work—  
No Change in the Situation.

The strike situation in the Grand Trunk Pacific shops at Calder continues unchanged today. Three or four unskilled men are reported to be at work in the shops but none of the regular work is being carried on. The shops are still heavily policed, night and day, and everything is quietness in their vicinity.

According to J. P. Merrigan, president for the better makers who is in Edmonton today, the declaration made by the company that those who have not gone back to work by taking a day or two of the conciliation board, are no longer to be considered in its employ and will not be taken back when the strike is settled, is not taken seriously by the men. None of them have gone back to work on the basis of it.

Mr. Merrigan said this morning that when the conciliation board meets at Winnipeg, a number of three or four representatives of the better makers and four representatives of the machinists will be in attendance.

The better makers representatives will go to Winnipeg from Rivers and Grand Trunk, two from the former place and one from the latter.

The machinists will send one man from Edmonton, two from Rivers and one from Grisham.

Witnesses who are in the G. N. R. and C. P. R. shops where the declared schedule is in force will be called during the investigation to give evidence as to the effect that the schedule and conditions they have been given are working out satisfactorily on their lines.

LOCAL OPTION VOTE

The date of the local option vote in House District No. 2 and 3 will be announced in all probability this evening.

TURKS ROUTED  
BATTLE AT DAWN

ITALIAN GUNS DRIVE SULTAN'S  
TROOPS FROM POSITION—  
ONLY ONE DEAD

Tripoli, Oct. 16.—Before dawn yesterday morning 200 Turkish infantrymen attacked the entrenched advance post of the Italians, west of the home of the Italian navy, backed by field guns, loaded from the fleet and forced the Turks to beat a retreat, leaving one dead. A quick-firing gun with ammunition and supplies was looted. Four Italian soldiers were wounded.

**To Stop Mobilization.**  
Paris, Oct. 16.—Bismarck has appealed to the powers to intervene to prevent the mobilization of Turkish troops on the Bulgarian frontier. Otherwise she will take such measures as may be necessitated by the Turkish preparations.

**To Stop Mobilization.**  
Constantinople, Oct. 16.—The Turkish parliament was opened yesterday afternoon. The sultan's speech from the throne was read by the grand vizier in the presence of the sultan, the oldest Turkish prince, the foreign diplomats, and the heads of the foreign banks.

The speech dealt mostly with the action of Italy in declaring war over Tripoli and accused Italy of opening hostilities before the expiration of 24 hours after the ultimatum was given and firing upon the torpedo boats in the Adriatic while they were sailing under the Italian flag. It broke out.

**Porte Has No News.**  
Constantinople, Oct. 16.—The Porte is without news concerning the Paris Peace conference. The question of mobilization is still under discussion. The sultan's speech will make a statement of its policy at a secret meeting at the chamber of deputies on Friday night.

The government will undertake no measures of a nature calculated to disturb peace in the Balkans. At the same time the government will continue a just and firm policy in defense of Turkey's rights in Tripoli. The Tripoli question has addressed a request to the president of the chamber for the impeachment of the late Italian ambassador, who is considered in the Tripoli affair.

**Bound to Annex Tripoli.**  
Paris, Oct. 16.—A letter to the Temps from Rome says, it is learned from an authoritative source that friendly four powers have decided to make a statement of its policy at a secret meeting at the chamber of deputies on Friday night.

SOCIAL AMENITIES  
ON KINISTINO AVE.

POP BOTTLES AND OTHER SUBSTANTIAL BOUQUETS ON "RUSSIAN WEDDING NIGHT"

The demand of Kinistino avenue ratepayers that the dance halls in the east end of the city be closed, being engaged the attention of the council, has been decided that the city has no power, even had it the desire, to close the places of amusement, the question of better regulation will be left in the hands of the chief of police and the city council. It was decided that the license fees should be increased in such a degree as to cover a large part of the cost of maintaining a street constable on duty in Kinistino avenue, for the purpose of keeping the sidewalks clear. The suggestion, however, is not likely to be carried out, as it would entail an almost prohibitive license.

Chief James stated that the police were in constant touch with the council of events on Kinistino avenue. They were always aware in advance, of the dates upon which dances were to be held, and special men were told off for duty. Arrests were frequently made in the halls, but on the morning after, erstwhile enemies of the prisoners became friendly and it was difficult to get evidence on which a conviction could be based. One man had been fined \$50 for assaulting a police officer. Last week a crowd of Rottenhams came down to the police station in a body and secured the officers.

The chief added that Tuesday night, "Russian wedding night," was a free-for-all event, but that on usual occasions certain persons hired the hall, sold tickets, and the trouble occurred when unruly crowds sought to force their way into the hall. The difficulty of obtaining complaints on the following day was, however, frequently made in the fact that persons hired the hall, sold tickets, and the trouble occurred when unruly crowds sought to force their way into the hall. The difficulty of obtaining complaints on the following day was, however, frequently made in the fact that persons hired the hall, sold tickets, and the trouble occurred when unruly crowds sought to force their way into the hall.

"The city has no power to arrest men merely for standing on the sidewalk," the chief said, "but the employment of special constables, the crowds can be kept down." In Toronto, Mr. Dwyer, a police officer, speakers were arrested for speaking on the streets and when the case came to court they obtained damages against the city, for wrongful arrest.

The people who complained that they

# SWOPE POSSIBLY GUILTY WILL PROCEED TO TRIAL OF THE STAGGAY

When Dr. Hyde's Appeal, Against His Conviction of Murdering His Father-in-Law, Will Be Heard—Believe He Murdered Ten Persons

(Special to The Capital)  
Kansas City, Mo., Oct. 10.—The famous Swope poisoning case will capture public attention, when Dr. H. C. Hyde is placed on trial today, for the sacred time, on the charge of murdering his father-in-law, Col. Thomas H. Swope, the aged millionaire philanthropist, and relatives, in order that he might inherit the Swope fortune.

Dr. Hyde's first trial, which took place in the spring of 1910, resulted in his conviction, and his coming sentence to life imprisonment.

The case was appealed to the state supreme court, and the decision reversed, April 11, 1911, and a new trial ordered. In handling its decision, the supreme court ruled out a number of vital points in the state's case, including the poison plot testified to by members of the Swope family, and as a result the attorney for the defense felt confident of a verdict of acquittal for his client.

Few criminals escape, the thoughtful have furnished such sensations as the Hyde case, and none has developed such strange and amazing evidence, where the prominence and wealth of the family and the strange methods employed by the alleged murderer for disposing of his victims.

The story of his infection, when Dr. Frank Hyde, a poor young physician, won the hand of Frances Swope, daughter of Colonel H. Swope, a prominent man in Missouri, and one of the wealthiest in the southwest, leading to the trial on October 10, 1911, some four years later Colonel Swope, through a

light accident, felt the need of medical attendance, and called to his bedside, Dr. Hyde. He was duly treated and was so pleased with the young doctor's presence that he further confided to his care a slight intestinal disorder which had troubled him for years.

**Poisoning by Cyanide Potassium.**

On October 1, 1909, Dr. Hyde arranged for a nurse to attend to his father-in-law while under his treatment, and the day following procured a quantity of cyanide of potassium, a lethal poison.

On October 1, Miss Hunter, cousin of Col. Swope and business manager, as well as wife of the Swope millionaire, died suddenly of a complaint diagnosed by Hyde as appendicitis. The patient was treated by Dr. Hyde and Dr. Swope, the family physician, and after a couple of days, it was alleged at the trial that he was told later, on the afternoon of October 1, that the nurse attending Col. Swope, who he told was a delicate invalid, had given him a dose of cyanide of potassium, and the dose he was seized with convulsions. Twelve hours later he was found dead.

On the 12th of November, Dr. Hyde secured a certificate of typhoid fever given by Dr. E. C. Stewart. On Thanksgiving day he died at the Swope residence in company with his daughter, and another brother to the estate, and on December 1, Christman developed symptoms of typhoid.

On the 12th of November, Dr. Hyde was called to the bedside of a young girl, and after a few days, she died. On the following day, blood was found in the stool of the Swope household, and the nurse attending to her was also suffering from typhoid.

About this time Dr. Hyde began to feel his stock of cyanide poisoning thirty grains on the 4th of December, and six days later, on December 12th, he gave Miss Margaret Swope a hygienic injection, which caused her arm to swell and so weakened her physical condition and gave rise to her death.

Shortly after this incident, Dr. Stewart had been cognizant of the mysterious death that seemed to follow the deaths with death and pestilence, because, he was told, that the alleged murderer Hyde was supposed to be making with the typhoid cases, and the number of the original conviction he found in the original conviction.

On December 17th, Dr. Hyde returned to independence, Mo., with Lucy Swope, who had been under medical treatment immediately after swallowing a draught of what was handed to her by the doctor.

**Contained Strichnine.**

The day following, Margaret Swope, after inhaling, the accused physician swallowed a capsule and was immediately taken with convulsions, from which she was relieved with strichnine administered by a nurse, in the doctor's absence. The capsule was secured from the Swope household, and the nurse was later found to contain strichnine.

The physician attended Margaret during her convalescence and to him the nurse of the Swope household confided their fears, stating that they were being employed of the family unless Dr. Hyde were ordered away.

Following this incident, Dr. Teyman summoned Hyde to his office for a talk and during the doctor's walk to the meeting place he was shadowed by Thomas Swope, his brother-in-law, who noticed that the accused physician was carrying a bottle in his pocket and around it beneath his coat he was walked. Thomas gathered up the crushed glass and found it to be a strichnine tablet.

Following his conversation with Dr. Teyman, Hyde left the Swope household and it was here that his young wife, who was called upon to attend to his household, and her worthy relatives. She chose to follow the fortunes of her husband, remaining his faithful attendant through all his misadventures, and causing a break between herself and her mother, which has never been healed.

Miss Lucy Lee Swope, while with her family for the week, was next seen on December 21st, she developed typhoid, calling to her attendance, Dr. Frank J. L. Stewart, and Dr. J. L. Gross, who improved the occasion by making a thorough examination of the remains, with the result that they found no natural causes from which the disease could have sprung, with the possible exception of the contamination of food by flies. Ten days later Dr. Hyde himself was taken down with typhoid in a very mild form from which he recovered in about eight days.

**Authorities Aroused.**

By this time the authorities had become aroused and during the latter part of December and the first part of January, the bodies of Christine Swope and the Colonel were exhumed by the coroner and an autopsy held by Dr. J. L. Stewart, and Dr. Frank J. L. Gross. The victims of the two bodies were taken to Glasgow, where an autopsy was made by Dr. W. S. H. and Dr. Victor Vaughn, who reported the finding of strichnine in the stomach and liver of Colonel Swope, and cyanide in the stomach and liver of Christine Swope.

The other cases, including in the trial of Dr. Hyde followed in quick succession. On January 20th the priestess of the first case to look into the suspicions that were first drawing a net about the doctor.

On January 21st, Dr. Hyde brought for trial and slander against a newspaper of Kansas City, and several persons connected with it.

On February 10, the coroner's jury declared that Col. Swope had come to his death by poison administered by Dr. Hyde and on March 5, the grand jury returned eleven indictments against the doctor charging him with murder in the first degree in killing Col. Swope, and Christine, manslaughter for the death of Miss Hunter, and assault with intent to kill Margaret Swope, Lucy Lee Swope, Stella Swope and five other members of the Swope household.

The trial of the doctor began on October 10 and lasted more than a month. On May 16, the jury brought in a verdict of guilty of murder in the first degree, recommending a life sentence in the penitentiary.

The sentence was duly pronounced, and the doctor's appeal for a new trial was refused. The appeal to the supreme court, which has resulted in a new trial for the accused physician.

## THE EDMONTON CAPITAL

One of the small craft of that section dare oppose them. With the usual Chinese instinct for concealment, the pirates have already formed two guilds one of which sails under a red flag, and the other under a black flag. Several serious fights have occurred between them in which a number on each side were killed.

**Must Stool or Starve.**

One of the native papers prints a tragic story of the punishment of a boy who turned thief because of the flood. The native paper tells the story as follows:

"Many of the flood refugees in the western part of the Huenan district have become thieves. One of them, Pang Chu, actually stole a spy for a band of thieves in the day-time and at night was their companion. Many people were robbed and they later the robbers bitterly. Recently Pang Chu, who stole the robbers to the home of Su Chung-chang from which they stole some clothes and about \$100 in cash. A few days later Su Chung-chang, a rich man, found his child severely and handed him over to the officials of his own clan.

But Pang Chu, who had been in the district and decided to take Pang Chu before the Huenan magistrate for punishment. Pang Chu, who had been in the district and decided to take Pang Chu before the Huenan magistrate for punishment.

With the exception of Haig, no large city has been damaged by the flood. Changshu, which has a population of more than 25,000 is under eight feet of water. Such towns with a population of more than 25,000 are under water. Hankow, the commercial center of China, is in the center of the flooded district. The Yangtze rose high enough to overflow the flood and all the cities in the flood region are under a depth of several feet, but the water was soon pumped out.

**QUEBEC MURDERER REFUSES TO SURRLNDER**

**BARRICADES HIMSELF IN HOUSE IS AND WELL SUPPLIED WITH WEAPONS.**

(Western Associated Press.)

Quebec, Que., Oct. 10.—A murderer is reported to have barricaded himself in a house in a settlement named Roblin in Pesty township, which lies between the city and the sea. The murderer is said to have a large stock of arms on his farm. The deceased was evidently a stranger to the neighborhood, and he was killed by a party on any railway. The alleged murderer has barricaded himself in his house where he has ample arms and ammunition.

The proof of the confidence that the outside investor has in Edmonton property is shown by the many sales that have been made in Edmonton in the last few days. The fact that the demand for offices and stores is always greater than the supply, and of the real property that is now being sold will be improved this coming year.

One of the large deals that were completed within the last couple of days was the 50 feet north of line in rear of the McLaughlin & Second property, known as the A. Corbett property. This property, which is a handsome figure, has been purchased by the Northern Investment Agency, Ltd., and will be pleased to submit plans.

This is one of the choicest tracts of property and will be sold at \$200 per foot front in the very near future.

Following are some choice business properties:

**Lot 104, N. L. 6.** This is on Isabella street, near St. James hotel. This lot has a frontage of 48 feet and is 150 feet deep; ready for immediate sale. Price, \$15,000.

**Lot in Block 5, on Jasper avenue.** 52 1/2 foot frontage; any terms. Per foot front, \$1150.

**Lot on Nampayo avenue, south of 10th street.** \$2000. This is positively the cheapest lot on Nampayo south of Norwood boulevard.

**The Southwest corner of Fraser and Isabella.** This lot has a frontage of 23 1/2 feet. 77 feet deep. Price (terms) \$10,000.

## Golf Links Should Be Purchased By the City For Park Purposes

Would Be Little Short of Crime to Use Beautiful Acreage in Any Other Way, Says James Wilson, Park Commissioner of Toronto

On no consideration should the city allow the Hudson's Bay flats west of the Parliament buildings, which are now accommodating a brickyard and golf grounds, to be secured for anything but park purposes, in the opinion of James Wilson, park commissioner of Toronto, who is spending a few weeks in the city as the guest of George A. Reid, 640 Fourth street. To the Capital yesterday afternoon Mr. Wilson expressed the opinion most emphatically that this property should be purchased by the city and converted into a park, with a driveway running the full length of the property. A brickyard never should have been allowed to commence operations in the flats and if possible its managers should be induced to move elsewhere, so that the entire flats could be given over to beautification which would make them an attractive and easily accessible breathing space for the residents of Edmonton.

"All large cities in the Western world that do not make ample provision for park grounds early in their history are now beginning to recognize their mistake," said Mr. Wilson. "Kansas City during the past few years has spent \$10,000,000 for park improvement, and they are finding that it pays to be the best possible advertisement of the city of the cities are administered by a commission that is entirely independent of the city council and made up of leading citizens of the communities."

In Mr. Wilson's opinion the most desirable use for the Hudson's Bay flats is to be made by the city. The city parks are by a commission. His ideal has not yet been attained in Toronto, but he believes that the city should establish there that shall have full control of the expenditure of park money, and that the city should have a park improvement work is carried on at present Mr. Wilson is the only parks commissioner. He is given an appreciation of the city council with which to carry on his work and all expenditures in his department must be approved by the parks committee of the city council.

Mr. Wilson's reason for believing that parks should not be under the jurisdiction of the city council is that that body has too much other work to do. Parks could be administered by a board separate from the city council, but as efficiently as the schools are so administered at the present time.

Park improvement work is carried on in Toronto by a fund that is replenished by a tax on the city. One half a mill on the dollar of assessment is set aside annually for acquiring new park property, and a substantial sum is spent each year in this manner, said Mr. Wilson.

He went on to explain that in cities where a parks commission rules, they are empowered to issue debentures and are authorized to pay out interest and provide for a sinking fund out of the annual appropriation they receive.

In the city of Chicago there are three parks commissions, each of which is entirely independent of each other each having control of the parks in their respective areas. The parks commission is left to work out its own problems in its own way and is not subject to the city council.

### SAVED FROM GAME SHARP CONTEST

**Detailed Account of Contest Which Giants Won by 2 to 1—Largest Attendance and Closest Game Ever Witnessed, Beating World's Series**

New York, Oct. 16.—In the presence of what was probably the greatest throng of baseball enthusiasts ever gathered together, the National league pennant winners the New York Giants defeated the American league pennant winners, the Philadelphia Athletics, by a score of 2 to 1, in the first game of the world's baseball championship at the Polo grounds today.

The battle was hard fought throughout with final honors doubtful up till near the end. The great stake caused every point to be played for with a watchfulness of which only such masters of the game as the minds behind the great baseball machines which took the field today are capable.

The National announced that 25,000 had paid admission to witness the contest, the gross receipts were \$77,500 from an article point of view the game was ordinary and would not live long in the minds of those who saw it. It was not for what depended on the outcome. There were merely any difficult chances or opportunities for sensational plays, such as from a bench a crowd in the field. It was a pitchers duel from inning to inning with India Red and the better pitcher of it during the contest. The Giants' pitcher, who proved sufficient, it was a welcome relief to the Giants' pitcher, who up to this stage of the game, had all but comparatively let the cause to exercise their lungs. Doyle walked. Snider's best effort was an out.

The box scores: New York AB. R. H. P. O. A. E. Boyle and Meyers were the only Giants not retired. Snider's service was not without effect. He was a pitcher's duel from inning to inning with India Red and the better pitcher of it during the contest. The Giants' pitcher, who proved sufficient, it was a welcome relief to the Giants' pitcher, who up to this stage of the game, had all but comparatively let the cause to exercise their lungs. Doyle walked. Snider's best effort was an out.

### EDMONTON LOST

**Red Deer Won Match in Overtime—Game to Be Protested**

Edmonton has journeyed to Red Deer, Saturday, to play a sudden-death game with the high school for the championship of the intercollegiate cup, but got it put over them to the tune of 4 to 1.

The game was a hard battle to the end, going thirty minutes overtime. Edmonton will in all probability protest the game on the ground that Red Deer was in some respects. The score at half time was 2 to 1 and both teams expressed their willingness to play 15 minutes overtime, each way. The locals faded away during these periods, allowing Red Deer to have a three goals.

The locals lined up as follows: Goal, C. English; backs, Potter and Hicks; half backs, Grizer, Ketter and Carmichael; forwards, Jaffrey, Thompson, Perrin, Whitelaw and Lonsdale.

### Comment

The Junior league Rugby game which was to have been played today between variety and Western Canada, was postponed to Saturday. The southern boys will play the first game here and Varsity will journey to Calgary about the middle of the month for the return game. Little is heard of the Junior league, and their schedule seems rather haphazard, but the university team are in shape now though they have just several of their first players left. The game is a good material to draw from and are quite confident of playing the cup.

### ALERTS WIN

The Alerts of Hamilton completely outplayed St. Michael's College in the senior B.P.U. game played at these dates today, winning by a score of 24 to 7. It might have been even more one-sided if the visitors had not left a little in the final half, and the fast collisions profited by their possession to score a try. The Alerts made a hopeless up-bill fight against the fast Hamilton aggression and their handling and the running back of punts which they kept, the winners from scoring often.

### Baseball

**Cliff Curtis is the travelling kid in the National league.**

Cliff Curtis is the travelling kid in the National league. He has played for the Chicago Cubs and Philadelphia Phillies this season. Perhaps Harry Davis, who has been in the Cleveland team after all. St. Louis has certainly made good since he was charged of the Blues.

### FOOTBALL

**This afternoon on the Second street school grounds, the Alex. Taylor and Queens avenue football teams will come together, in a public school league match.**

This afternoon on the Second street school grounds, the Alex. Taylor and Queens avenue football teams will come together, in a public school league match. The championship is drawing near, and the schools are playing hard.

In the public school football league the McKay school went to the top of the league when they defeated the Oliver school by a score of two to one. The game was played on the Second street grounds and was a fine exhibition, both teams played well and fighting hard all the way. The game put the Oliver school out of the running, with a record of one tie and one defeat with the McKays.

Standing of the league is as follows: McKay ..... 1 0 0 0 3  
Oliver ..... 1 0 0 0 1  
Taylor ..... 0 0 0 0 1  
Queens ..... 0 1 0 0 0

### ESKIMOS WIN

**Rough-Riders Put Up Game Struggle But Had to Succumb**

Calgary, Oct. 16.—The Rough Riders developed unexpected strength Saturday and gave the Eskimos a battle that they will never forget. On the play the game should have gone to the local team, but the Eskimos took advantage of a couple of misplays and scored two touchdowns, neither of which was converted. The other Eskimo point came as a result of a touch in goal. The Calgary points were scored on straight football. One touchdown by McManis which was converted and three touches in goal.

Summary—Eskimos, first quarter, touchdowns, O'Donoghue, 5; second quarter, touchdowns, O'Donoghue, 5; third quarter, touch in goal 1; total 11.

Rough Riders—Second quarter touch in goal, 1; fourth quarter, touch in goal 1, touch in goal 1, touch in goal 1, touchdown, McManis 5; total 9.

### THE TIGERS BANKED FAST Y. M. C. A.

**Locals Handed Surprise in Form of 9-0 Score—Game Was Fast and Rough in Spots—Could Not Pierce Tigers' Defense**

The Tigers had their revenge for last week's game, when they administered a coat of whitewash to the Y. M. C. A. team on Saturday at Diamond Park, incidentally fattening up their average in the race for the Big Four.

About 250 people turned out to witness the game, and undoubtedly there would have been more had the weather been better.

The locals put on a strong team to meet the Tigers, but for some reason, the Tigers had a team, though when they got together and used their weight, they made it count, several times making the Tiger line back for yards on end. Individually the Tiger stacked up well, the tackling of "Varsity" line and the running of "Varsity" line standing out prominently. But it was in putting the Tiger line back generally coming for yards. In this they were aided by the high wind, which blew straight into the Tiger's faces.

The game was by no means a punk tea affair, the points being being kept up by letters on both teams. In this, the Tigers were the leaders, and a lot of their efforts were in the line of kicking when Mark kicked Clark, when the latter was lying on the ground. The Tigers scored four points in the first half. Half time was called with ball in Y. M. C. A. territory most of the time, mainly by the good kicking of the Tiger line. They worked the ball in Y. M. C. A. territory most of the time, mainly by the good kicking of the Tiger line. They worked the ball in Y. M. C. A. territory most of the time, mainly by the good kicking of the Tiger line.

Britain got three minutes for tripping. Tigers kicked over the line and Gormack was nailed before he could catch. Tigers 1. Tigers forced the game on a series of long punts, gave Gormack to rouse. Quarter time score: Tigers 13, Y. M. C. A. 0.

Tigers got away for a run, but Clark broke it up with a good tackle. Tigers built on "Y" 20 yard line. On the third down, Tigers kicked over the line to the fence, counting one point. Y. M. C. A. suffered up here and in a scramble pushed the Tiger team back on a ten yard gain. On a fumble by Dalbie and quick following up, Tigers scored on the scrimmage. Half time was called with ball in Y. M. C. A. territory.

A. suffered up here and in a scramble pushed the Tiger team back on a ten yard gain. On a fumble by Dalbie and quick following up, Tigers scored on the scrimmage. Half time was called with ball in Y. M. C. A. territory.

Tigers got away for a run, but Clark broke it up with a good tackle. Tigers built on "Y" 20 yard line. On the third down, Tigers kicked over the line to the fence, counting one point

PRESS AGENTS SAY

"MADAME SHERRY."

"That the theatre-goers of this city appreciate the opportunity afforded them to see and hear 'Madame Sherry' so soon after its phenomenal hit in New York was made evident this morning by the large prospective seat purchasers which faced the box office. It appears that the management of 'Madame Sherry' at the Empire theatre tonight will break some new records for theatre attendance. Almost from the very day after the first American production the audience score of the piece, particularly its theme song, 'My Little Movement,' has been played, hummed and whistled from coast to coast, while Chicago, New York and London have since then been convulsed with the unique comedy and delighted with the refreshing charm and ingenuity of 'Madame Sherry.' A general consensus of opinion is that 'Madame Sherry,' in addition to the regular musicians of this theatre, are required for the rendition of the irresistible theme song.

AT THE LYCEUM.

The Lewis and Lake company at the Lyceum theatre will appear for the first half of the week in 'Finnegan's Flats' which is a laugh producer of some much comedy and many funny situations that it throws the audience into a fit of laughter from which they do not emerge until after the drop of the final curtain. 'Finnegan's Flats' is no mere liberal allusion made for convenience of the latest musical comedy. The dancing puppets will carry out new dances and novelties which have been staged under the expert direction of Miss Marjorie Lake. Halfness will be given on Monday, Tuesday and Saturday, at which the popular price of 10 and 25 cents will prevail.

WIDOW DEMANDS \$50,000 DAMAGES CLAIMS HUSBAND LOST HIS LIFE AS RESULT OF CAR ACCIDENT IN THIS BUILDING

(Special to The Capital.) Los Angeles, Cal., Oct. 16.—Action has been entered by the widow of a member of the editorial staff of the Los Angeles Times, who was killed in the explosion a year ago, claiming \$50,000 damages for the death of her husband. It is alleged in the statement of claim that the explosion was caused by gas, and a number of explosives will be placed on the stand by the plaintiff to prove that such was the case. Dynamite, it will be pointed out, explodes equally in all directions, and had this been the cause of the disaster, the walls of the building would have been completely shattered. As it was, the roof was blown out, and the walls remained standing.

In the statement of claim the plaintiff charges the defendants with having negligently permitted the newspaper establishment to become filled with gas, and with having failed to provide proper means of escape from the building as required by the city ordinances. Coming as it does at a time when the eyes of the organized workers of the continent are turned towards Los Angeles, and a gigantic effort is being made to secure the removal of McNamara, who is charged with dynamiting the building, the suit which has just been entered has created a profound impression. The McNamara trial has stirred the world of labor of the United States and Canada to its depths, and every new development in the trial or any new circumstantial to the case, gives rise to a new wave of excitement. It is stated that a number of similar claims will be brought against the Times, all for very large amounts.

MISSIONARY OFFICER.

(Western Associated Press.) Toronto, Ont., Oct. 16.—At the annual meeting of the Canadian Church Missionary society last night the following officers were appointed on the board to represent the Northwest and British Columbia: Rev. Archdeacon McKim, Rev. R. H. McPherson, G. G. Owen and A. E. O'Brien.

DISCOVER RICH VEIN IN PRESTON EAST DOME MINE

Run Is Estimated at \$25,000 Per Ton—Nome, Alaska, Engineer and Capitalist Buys 300,000 Shares and Price Leaps from 25 to 35

(Western Associated Press.) Toronto, Ont., Oct. 16.—A three-foot vein of ore running about \$25,000 or a clear million dollars to every forty tons, has been discovered in the Preston East Dome mine, according to Col. R. Z. Stewart Weatherly, British vice-consul at Nome, Alaska, who is also a mining engineer and capitalist. Col. Weatherly did not dare the fact just evolved and the afternoon likewise evolved from the colonel in the manner the Preston East Dome shares have skyrocketed from 25 to 35, and before Col. Weatherly had bought in a considerable quantity. The first period in the evolution happened when the capitalist wandered into a Toronto broker's office and asked if they could sell him a few Preston East Dome shares. Certainly they could, but when he asked their price for 100,000 shares they woke up a little. The negotiations, however, resulted in their offering the shares at a point above the market. This was promptly accepted by the colonel who procured a check in payment. In a hurried call he certified the validity of the check and the brokers handed over the shares. The scene was repeated at another office, this time 25 being paid for the 100,000 shares available. Finally there were options on yet another block of 150,000 shares, but the man with the unlimited cash money, by this time, limited cash money. By this time the financial district thought that if there was one more every minute at least one brought up the average but that was before the colonel produced a wooden box which he laid down and which on opening, the colonel proceeded to show the samples which made the beholders, many of whom had seen gold lodes, put on smoked glasses. In the box were chunks of rock that were plastered with gold and which would like lead. Then the owner of the gold box proceeded to explain he was owner of the Cambridge claims adjoining the Preston East Dome. He had just returned from Porcupine, and the ore had been taken off the lode and in the Bygonia mine and within a few feet of the Preston East. The vein ran into the Preston mine and all they had to do was to look and they would find it. The colonel's overwhelming analysis to claims to claims of the Preston East Dome, an ambition which he has realized to such an extent that the miners are still wondering how he did it.

STRAY TOPICS FROM OLD NEW YORK TOWN

Thieves and Burglars Gathered in Valuables Worth \$150,000 During the Month of September—Sullivan Gun Law a Joke—Value of Advertising

New York, Oct. 16.—At last the wave of higher prices has reached the East side and the poor, of whom there are some thousands on the East side, are beginning to feel its effects. With them to feel the effects of this wave means to suffer from it. Nearly all the small lunch places scattered through the East side districts, and almost exclusively patronized by the poorest class of people, have posted notices informing their customers that from now on a cup of coffee and a doughnut, formerly sold for three cents, would cost four cents. Extra doughnuts are still sold at one cent a piece, but while their circumference is the same as formerly, the hole in the middle of the doughnut is perceptibly larger.

During the month of September thieves and burglars reaped a big harvest in New York City. It is estimated that during the past month silverware and jewelry worth more than \$150,000 was stolen. The thefts in the city during the months of June, July and August, aggregated \$300,000, an unusually large sum, but September proved even more profitable for the crooks. The most aggravating feature is that the Metropolitan police seem to be unable to arrest a single thief or burglar or recover any of the stolen property. New York City is, indeed, a regular paradise for the crooks of the country.

According to statistics gathered by the National Highway Protective society forty-three persons were killed and 223 seriously injured by automobiles during the month of September. Twenty of those killed were children under sixteen years of age. Eleven persons were killed by automobiles, fourteen by trolley cars and the rest by other vehicles. Automobiles injured 107, trolleys 61, and wagons 60.

The city of New York has an official board known by the name of Inebriety board, appointed under a law passed by the legislature in 1910, to deal with the subject of inebriety in this city. When the board was first appointed a great deal of fun was made over its peculiar name and over the duties which it was supposed to have. The members of the board, all worthy gentlemen, who take themselves and their

every is equipped with such a weapon, one of them is liable to be arrested and punished under this law.

Father Vaughn, the famous Jesuit priest, for many years connected with religious and social reform movements in England, arrived here the other day from England, to study social conditions in this country. It so happened that quite a number of enthusiastic women's suffrage advocates crossed the ocean on the same steamer on which Father Vaughn sailed for New York. To keep in practice during the voyage the suffragettes arranged a meeting on board ship and Father Vaughn was requested to occupy the platform. He listened to a number of railed suffrage speeches and finally the ladies urged him also to deliver an address. The feelings of the suffragettes may be easily imagined from the fact that Father Vaughn was not permitted to occupy the platform.

Police court interpreters are not, as a rule, highly accomplished linguists. In most cases they speak the foreign languages better than English and the result is that they contribute considerably to the humorous side of the proceedings. Quite amusing were the efforts of the interpreter in a dissertation case before one of the magistrates the other day.

"And the woman whether her husband left her," said the magistrate. "No, Sir, he didn't leave her," replied the interpreter. "He went away." Later, in the same case, the interpreter explained that the woman did not panhandle naps but a certain address, but "dwelt upstairs" in the yard, which, after all, is not so bad a way to describe the status of a person living in the rear of one of the East side tenement houses.

MADAME ALBANI'S FAREWELL.

London, Oct. 16.—The whole musical world was interested in the farewell concert of Madame Albani, the distinguished Canadian-born singer who for forty years has entertained the public in Europe and America. All of the leading musical artists co-operated in the arrangements for the farewell, and the Royal Albert hall was selected for the concert. Among those who took an active part were Mme. Adelina Patti, Mme. Ada Crosskey, Mr. Ben Davies, Mr. Pinthart Green, and the New Symphony orchestra.

## Princess Beatrice Lost On North Pacific Coast

C. P. R. Coasting Steamer Goes Ashore on Rocks of Noble Island—Chinese Passengers Were Very Badly Frightened

Victoria, B. C., Oct. 16.—The C. P. R. steamer Princess Beatrice, running between Vancouver, Prince Rupert and The Northern Canaries, struck on Noble Island at 10 o'clock Saturday and is held fast on the rocks, the 300 passengers, 200 of whom are Chinese being brought south from the canaries were taken off by the steamer Venture and landed at Alert bay. No one was injured. The steamer struck on a low water. She is lying sheltered with three fathoms of water under her stern and bow hard ashore. There are large holes in the bow and the forward bulkhead is filled with water, but the engine room pumps are keeping the vessel free of water off the bulkheads, which are holding well. While the vessel struck the Chinese in the storage were greatly alarmed, but the officers succeeded in controlling them and the passengers were taken off in small boats and transferred without mishap to the Venture, which responded to distress signals. The steamship Princess Royal is standing by the wreck and the salvage steamer Salver and the steamship Princess May have been sent to the rescue.

## SEEKING NEW LAND.

Information regarding the various districts tributary to Edmonton has been sought at the immigration hall on First Street during the past week by 215 persons of various nationalities and occupations. Not a day passes when the immigration hall office is not filled with people who are prospective settlers in the country or possibly are seeking information about homestead regulations or available lands for purchase, on behalf of their friends or relatives.

The number of people who came to the city to take advantage of the recommendations offered at the hall during the week was 19. Twenty-nine persons left the hall, and on Saturday night there were still 23 remaining there as inmates. These figures are furnished in the official weekly report.

## NEWS OF THE CITY

Mr. and Mrs. R. V. Bellamy returned on Saturday from a visit in Ontario. I.O.O.F. No. 41 met tonight at their lodge rooms on Norwood Boulevard. An invitation is extended to all brothers.

The social in connection with the Guild of First Presbyterian church will be held tonight.

A special meeting of the ladies lodge will be held in All Saints church room tonight, after 7 o'clock. Important business will be discussed and all members are requested to be present.

The local order of the bricklayers, masons and plasterers international union of America, will hold its first annual banquet in the Mechanics' Hall tonight. An excellent program is on the boards for this evening.

A. M. Jeffers, provincial architect, has been appointed to look after the preliminary arrangements for the new city hall by the committee appointed by the city council to go into the matter.

Tonight at 8 o'clock, the regular meeting of the Exhibition association will be held. Business, the accumulation of the past week's work, will take up the greater part of the session. The final financial statement on the International Bazaar for the past week will not be "washed down" until the annual meeting of the association in November.

A Gundersen dance will be given under the auspices of the Sons of England, Friday, Oct. 27th, to be held in the Separate School hall, owing to the success of these dances last season, the Sons of England, wish to announce that they will take place on the last Friday of each month, throughout the season. Programs and light refreshments will be provided.

P. J. Morrison, conservative candidate in the recent federal election for the constituency of Victoria, will take an active part in the by-election campaign in the southern part of the province. He will leave for Pincher Creek in the course of a few days, and in the course of the campaign will speak in all the constituencies in which by-elections are to be held.

H. M. McLeod, general manager of the C. N. R., came to the city last evening after a trip west to have construction work being carried on the main line of the road toward the mountains. He left for Calgary this morning.

McLeod, superintendent of the Edmonton division of the Grand Trunk Pacific arrived in Edmonton from the west, last evening. Mr. McLeod has charge of the C. N. R. line west on the north yards.

Premier Stifton has returned to the city from Calgary, where he addressed a meeting on Friday night in support of Mr. Stifton, the liberal candidate in the forthcoming election.

DON.—TO MRS AND MR. D. MC. CULLOUGH, Dundonald, Clover Bar road, a son, Sunday, October 15.

## SPEAKS NO ENGLISH; HUSBAND IS LOST

NORWEGIAN WOMAN WITH THREE CHILDREN COMES TO JOIN HUSBAND WHO CANNOT BE FOUND

A headstrong, homely and poverty-stricken little Norwegian woman, lately ignorant of the English language and with three small children looking to her for the food she can not afford to buy is at Hildesheim, Alberta, sixteen miles west of Edmonton, looking for her husband, Peter Hanson, who has not been heard of since September 23 when he left the employ of the Grand Trunk Pacific on the Hildesheim branch of the G. T. P., received his money and started for home.

No one knows where he is. His wife and children are being cared for in the home of a friend, Mrs. B. H. Bickel, by the contracting firm, for which Hanson worked, and if it is not found it will be necessary to have a migration authority to deport the woman and her children.

The headstrong Mrs. Hanson, with her three children arrived at the immigration hall on Tuesday last. She carried with her a letter written with a type writer in English and with pen in Norwegian. It said, "Come to Hildesheim, west of Edmonton. I am working for Platan and Shirley."

Gratified from the contents of the letter that she would find her husband she came all the way from Norway to Edmonton, remained in the immigration hall over night, and taking her husband and his children she boarded the early train, Friday morning, still full of hope and confidence to go to Hildesheim. It was on her arrival at the destination west of Edmonton that immigration agent Webster received a telegram from Platan and Shirley's office saying that Hanson had left their employ on September 23rd. The woman is there among strangers, without sufficient money to get her way back even to Edmonton. Mr. Webster communicated with Platan and Shirley, asking them to make a return on an effect could be made to find Hanson in Edmonton, and meanwhile the search is being continued.

A peculiar feature of the case is that while Hanson was undoubtedly expecting his wife and children to Edmonton, and left Hildesheim on September 23, stating he was coming to the city he has never reported the immigration hall to make any enquiries or to leave word as to where he would be found in his journey. The woman is ill-prepared to go through a Canadian winter, having her three children, to look after makes almost impossible for her to get work so that if her husband is not found there will be no alternative to deportation back to the land and the conditions from whence she has come.

During the first six months of the present year, the immigration authorities of bricklayers has paid 402 death allowances, amounting in all to about \$68,000.

## ONE BALLOT BOX WILL BE MISSING

BALLOTS WERE DESTROYED OR LOST DURING FRAUD AT POLL 164.

When the final count of the ballots cast at the Dominion election in the federal constituency of Edmonton, there will be a missing ballot box, the voters from polling station No. 164, in the district destroyed in the fraud on polling day, of Leaman will be missing. The official record of the poll in the constituency was shot and a place of the official record of the ballots cast, all that is available is an affidavit signed by Frank van Camp, deputy returning officer, who is now out on bail and must come up for trial in connection with the shooting affair, stating that 70 ballots were cast in all, and that everyone of these was for the Hon. J. E. Houghton. Campbell, who is charged with shooting a man in the polling booth, states that he had first finished counting the ballots when a disturbance occurred. In the noise which followed all of the papers, and the ballot boxes were destroyed.

## GOVERNMENT HAS FAILED TO REPLY

TO LETTER SENT BY SECRETARY BY TRADES COUNCIL REGARDING WAGES PAID EMPLOYEES.

While complaints have been lodged with the Hon. J. E. Houghton, of the provincial government, protesting against the low standard of wages paid to the employees of the Grand Trunk Pacific railway, so far the department has ignored the requests. The trades council has written to the letters sent by the secretary of the Edmonton trades and labor council, John Stokes, forwarding the resolution of the trades council, asking for the payment of a scale of wages which falls short of that adopted by the organized workers of the city. No reply was received, and the secretary wrote Premier Stifton direct. Up to date the reply has not answered the communication.

## CROSS THE DIVIDE IN THREE WEEKS

TRACK LAYING MACHINE TO RESUME OPERATIONS WEST OF FITZHUGH IN A WEEK.

The crossing of the Grosch Divide, west of the North Saskatchewan river, on the railway will be an accomplished fact within the next three weeks, if no other serious interruption occurs. The construction department of G.T.P., which is now shipping supplies to Fitzhugh, for another twenty miles of line, which will move the steel head from a mile and a half west of the mountain divide, to the Grosch Divide, and the summit of the yellowhead.

It is probable that the track laying machine will resume operations west of Fitzhugh, in the course of another week. The grade through the mountains is practically completed, and ready for the steel, steel rails and ties to the present head of steel.

Freight is being passing through the country every day with loads of construction supplies. They are using a wagon road that has been constructed jointly by the R. C. government, with a view to aiding its settlers, and the railway contractors, Foley, Welsh and Stewart.

It is probable that with the opening of the season, the Grosch Divide, and year, thousands of tons of supplies for settlers, prospectors and railway equipment, will be passing through the mountains and down the river to various points in stamens and in coars.

## POLICE COURT CASES

Three gentlemen of hitherto illustrious names were gathered in by the watchful police, and were this morning asked to contribute four dollars and cents to the court.

Henry Gary and H. M. Smith, carless, were charged with driving a motor car, as a bicycle path, and as a consequence, will be asked to appear on a charge of theft.

Wm. B. Olson will come up this afternoon on a charge of theft.

Wm. B. Olson will come up this afternoon on a charge of theft.

Wm. B. Olson will come up this afternoon on a charge of theft.

Wm. B. Olson will come up this afternoon on a charge of theft.

## DEALERS SHOULD PROVIDE A HOME

INBIATES SHOULD BE CARED FOR AT EXPENSE OF LIQUOR DEALERS, SAYS PASTOR.

A scheme to charge up the effect of the liquor traffic on those who have been injured by a community was outlined by Rev. J. E. Houghton, during the course of his sermon in the Methodist church last evening. Mr. Houghton suggested that institutions be established for those who are injured by the community or on their family, as a result of the habit, should be sent, and if they could not be kept there, any other way they should be sent there for a term, during which the best of scientific treatment would be given. Further than this, all families left destitute as a result of drunkenness on the part of the father or mother, should be cared for by the city, in institutions provided for the purpose if necessary.

The cost to the city for one year for the maintenance of these institutions, and the care of those who are injured by the liquor traffic, would be the same as the cost of the liquor dealers in the city for the year following.

"And I would like the liquor dealers to know just who it was they were paying for," said Mr. Houghton. "They would find that if they did not, they would be paying for the care of those who are injured by the liquor traffic, and who are now being cared for by the city."

On other occasions than last night, Mr. Houghton has pointed out, under present conditions, it often happens that the benefit of reclamation work done by the various churches and missions in the city is reaped by the liquor dealers alone.

A promising man who has spent all his money in drink and lost his position is turned on the street as an outcast, with no schooling and no means of earning a living, and he is often seen back to the bar to spend everything in another grand spree, and so the cycle repeats itself.

The temptations offered by the liquor interests on every business street in the city, and the temptation to the charitable regards of the missions or the churches, Mr. Houghton's words are a warning to the city.

## FIRST SMOKER BY THE YOUNG LIBERALS

SECRETARY PROMISES THAT THE PUBLIC WILL GET A SHOW ON WEDNESDAY EVENING

The first of a series of smokers to be held by the Young Liberals as part of their organization work is to take place in the club room in the McDonald court building, McLaughlin avenue, Wednesday evening, commencing at 8 o'clock. O. H. May, the new secretary, is in charge of the occasion, and makes a promise that the public will get a show without a doubt. There is a great amount of talent in the club membership and several of the best singers have performed their assistance on the programme.

"The others and executive of the club" added Mr. May "are devoting all their best efforts to making these evening genuine treat for all those who will come and partake of the club's hospitality."

"Another feature of the season's entertainment," added Mr. May, "is that we shall invite all prominent visitors to the city to address us, and during the next session of the legislature, our provincial solons will also be invited to discard their togas for an evening and tell us what it is all about."

## GRAVEL DREDGES CEASE WORK NEAR BRIDGE

LETTER FROM OTTAWA PUTS A STOP TO DIGGING CLOSE TO THE PIERS.

On Saturday there was a prompt response to Mayor Armstrong's telegram to Ottawa, asking that steps be taken to put a stop to the removal of gravel from the vicinity of the east end bridge piers by grading and other local contractors. W. W. Carey, deputy minister of public works for the Dominion, which his worst up a few hours after the receipt of the telegram, stating that the matter had been placed in the hands of the municipal police here, and that he would see that the permit to take gravel from the river bed, cease operations in the zone lying within ten yards of the bridge, and the permit will be cancelled at once. Superintendent Githens and Inspector Stewart of the R.W.M.P. have since paid a visit to the east end bridge, and have taken steps to prevent further digging by the contractors.

## EASTERN MEDICOS WILL VISIT CITY

DR. MACKIE TELLS OF ARRANGEMENTS NOW BEING MADE FOR THEIR ENTERTAINMENT.

Montreal, Oct. 16.—Dr. H. G. Mackie, of Calgary, president of the Canadian Medical Association, is now in the city making arrangements for the holding of the association's annual meeting next year in Calgary. Dr. Mackie explained that the meeting would take place in August, lasting two days in the Alberta capital and the following day at Calgary.

He announced that a solid train could leave Montreal, carrying the Quebec and Maritime Province members, putting up the Ontario contingent at North Bay and Port Arthur. From an attendance of from five to six hundred at the last annual gathering, Dr. Mackie expects that the next year to be over a thousand, and for this reason an opportunity will be given the members to see the flourishing cities of Alberta and Saskatchewan in detail.

After their stay in the capital of the province the members will take their special train in the evening and the next day will be delegates to the sister city of Calgary.

## THE WEATHER.

Winning, Oct. 16.—The weather throughout the province has been fair, in the northern parts of Saskatchewan and northern Alberta, a little cooler, elsewhere the weather has been mostly warm.

Brandon, clear	72	42
Weyburn, clear	72	42
Regina, clear	72	42
Prince Albert, clear	68	35

## WILL COUNTERACT BENEFITS OF WEST

DOMINION GOVERNMENT PLANS TO AD ALL IMMIGRANTS WHO SETTLE IN ONTARIO.

"Toronto, Oct. 16.—The forthcoming appeal to the electors of Ontario for the election of a government, a policy of colonization for the province, it is predicted with assistance from the chief department of agriculture and with the payment of the large overture Dominion subsidies to the T.N.O. railway, Ontario day belt is to be opened for settlement. Generous assistance to the settler, so that he will find the western prairies to be no desert, is under consideration.

## GRAVEL DREDGES CEASE WORK NEAR BRIDGE

LETTER FROM OTTAWA PUTS A STOP TO DIGGING CLOSE TO THE PIERS.

On Saturday there was a prompt response to Mayor Armstrong's telegram to Ottawa, asking that steps be taken to put a stop to the removal of gravel from the vicinity of the east end bridge piers by grading and other local contractors. W. W. Carey, deputy minister of public works for the Dominion, which his worst up a few hours after the receipt of the telegram, stating that the matter had been placed in the hands of the municipal police here, and that he would see that the permit to take gravel from the river bed, cease operations in the zone lying within ten yards of the bridge, and the permit will be cancelled at once.
